

# Mirrors

Brey-Krause universal frame mirrors set a new standard in quality and installation ease. The innovative design and fabrication method results in a mirror with superior breakage and moisture resistance.

Mirrors are fabricated from one piece, 18 ga., 5/8" x 5/8", satin finish, stainless steel angle frame with tightly mitered corners. Mirror edges are protected by cushioned adhesive strips to prevent damage. The mirror back is galvanized steel and sealed by continuously applied industrial adhesive. Mirror is secured to wall by 2 vandal/theft resistant brackets. The 1/4" float glass mirror is silvered and copper electrolytic plated by galvanic process. Mirrors meet Fed. Spec. DDM-411, DD-G-451d, ANSI 2-97.1-1983 and CPSC-Cat 2-16 CFR.

### 3-in-1 Mirror

With the unique and innovative Brey-Krause mirror design, you can convert your universal frame mirror into either a fixed tilt mirror or an adjustable tilt mirror.

The standard mirror snaps easily into either frame.

See the **Reference Section** for more information.

The following frames require the Universal Frame Mirror listed above.

## Adjustable Tilt Mirror

Use the Adjustable Tilt Mirror Brackets to convert the universal frame mirror to an adjustable tilt mirror.
