

Stainless Accessories

THE CONCEALED MOUNTING SYSTEM

Post is welded to mounting bracket and flange to form an integral unit. Post assembly mounts on stainless steel wall plate and is secured with set screw on bottom.

These accessories are fabricated from stainless steel, and available in satin and bright finishes. Powder coated finishes are available by special order.

The 4900 series mounting system is concealed as the post is welded to the mounting bracket and flange to form an integral unit. The post assembly mounts on a stainless steel wall plate and is secured with a set screw on the bottom.
