

Stainless Shelving

Shelves and brackets are fabricated from stainless steel.

Standard sizes are 6" deep by 18", 24" or 36" wide. Corners are welded and ground smooth for added strength and safety.

Shelves can be fabricated in a wide range of sizes. Other styles can be custom fabricated to meet architectural requirements.

To Order:

Specify part number, width and finish.

Specify shelf depth required if other than 6".

Example:

Part # + Width + Finish + Depth (optional)

K-4040 - 36" - SS = K-4040-36"-SS

Finish codes

BS- Bright Stainless

SS- Satin Stainless

AG- Antimicrobial
