

# Grab Bars

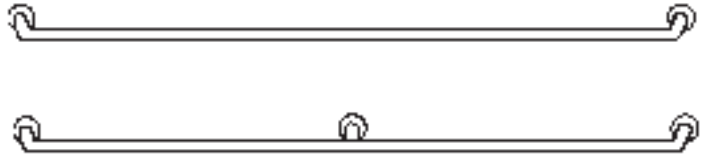

**NOTE:** Grab bar lengths and bends can be modified to meet architectural requirements. Grab bar numbers in red are fabricated with slip supports for installation flexibility. Large grab bars can be specified with two piece construction and splice kits to allow shipment via UPS. Welded toilet paper holders can be factory installed on most bars.

## Bar Numbers

Straight grab bars - numbers are as follows:

- |                   |                   |
|-------------------|-------------------|
| 10 = 12" straight | 14 = 32" straight |
| 11 = 16" straight | 15 = 42" straight |
| 12 = 18" straight | 16 = 36" straight |
| 13 = 24" straight | 17 = 48" straight |
| 21 = 30" straight |                   |

Specify center supports when required.

## Shower & Tub Bars

<p><b>19</b></p>	<p><b>20</b></p>	<p><b>27</b></p>	<p><b>75</b></p>
<p><b>23</b> ("left hand")</p>	<p><b>22</b> ("right hand")</p>	<p><b>53</b> Right hand shown 2 piece construction</p>	<p><b>56</b> Right hand shown 2 piece construction</p>

<p><b>48</b></p>	<p><b>51</b></p>	<p><b>69</b> Standard bar fits 30" x 60" stall</p> <p>For custom sizes supply wall dimensions</p>
