

Reference: Reversible Shower Seat

Construction:

Brey-Krause L-shaped A.D.A. compliant shower seats are available with reversible handing and a choice of seat top. Reversible shower seat tops may be specified with a one piece ivory or woodgrain phenolic top or with a solid white poly top. The phenolic tops have CNC-machined grooves and holes that provide superior drainage and a more natural appearance, particularly the woodgrain finish. The L-shaped seat can be converted to a rectangular seat by removing the handed portion and replacing it with decorative plastic plugs.

Instead of having to stock multiple shower seats or pre-determine the handing required, the Brey-Krause "reversible handing" shower seats enables the handing to be determined during installation.

Right Hand

Left Hand

This innovative design enables one shower seat to be configured in either the left-hand or the right-hand configuration

S-6212-SS
White Poly

S-6279-SS
Ivory-Phenolic

S-6280-SS
Woodgrain Phenolic

Seats are constructed to meet or exceed A.D.A. barrier-free accessibility guidelines. Folding seats utilize a self locking mechanism to help secure them when not in use. Overall dimensions are 32" x 23".
